

# The Real Thing

© Gilad Aharoni (Israel) 2003

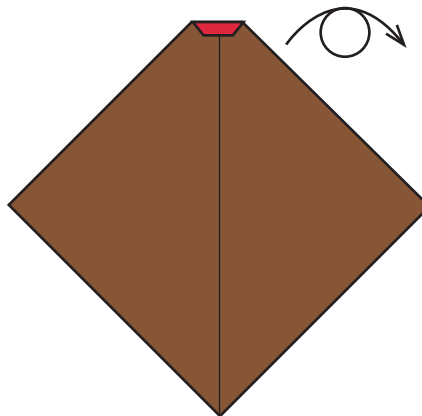

Simple

A 15cm (6") square makes a 10cm (4") tall model.

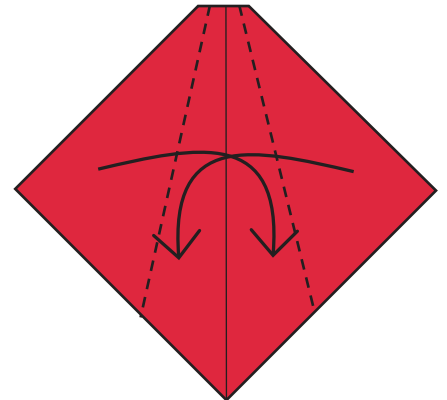

Drink  
  
Label

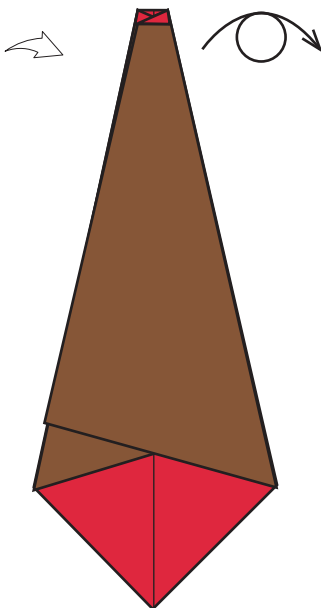

1. Start with a square, drink side up. Valley fold tip over and over.

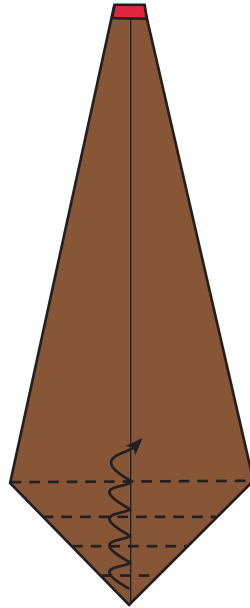

2. Turn over

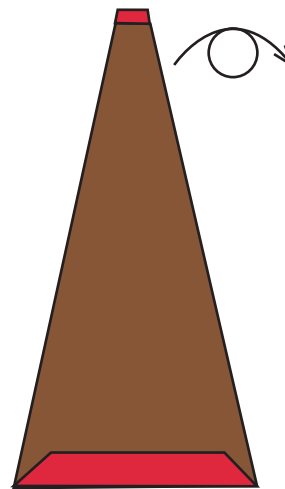

3. Divide top corner into thirds, overlapping the sides accurately.

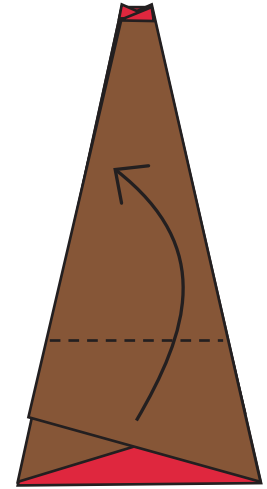

4. Like this. Turn over.

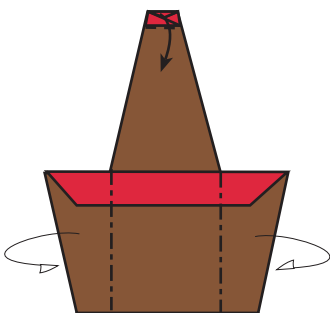

5. Fold bottom over and over.

6. Turn over.

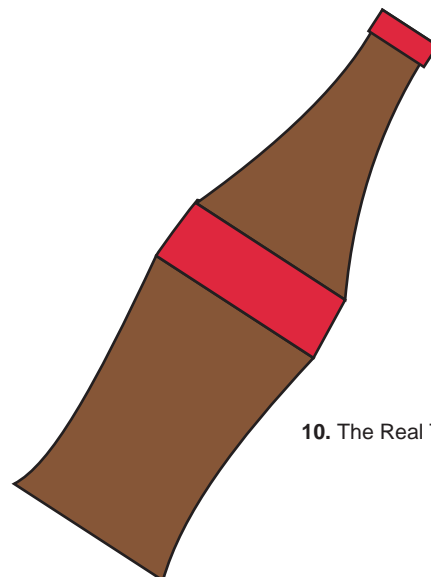

7. Valley fold up, to position the label approximately at the middle of the bottle.

8. Mountain fold corners behind (They can be interlocked together) and valley fold cap down.

9. Shape bottle with curved folds

10. The Real Thing!
